

Take & Make Dragon Puppet!

Materials Provided:

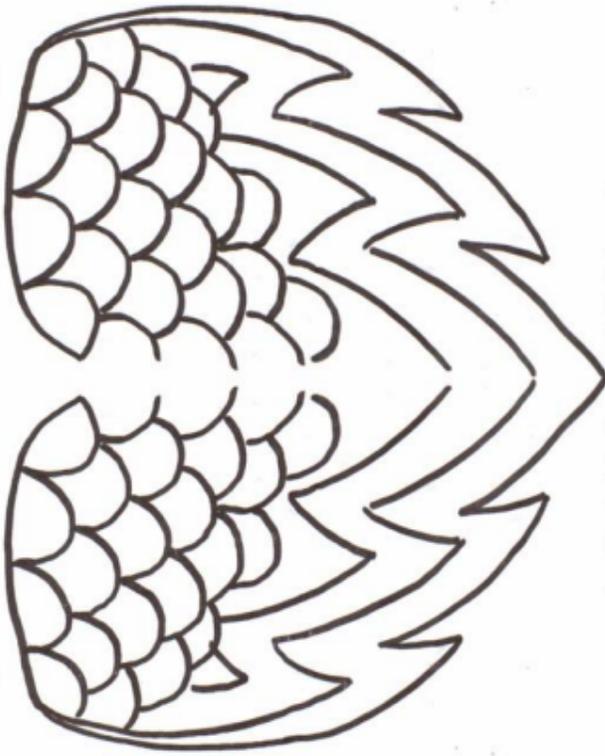

- Dragon Template
- Red Paper
- Tissue Paper for "fire"
- 2 Popsicle Sticks

Additional Materials Needed:

- markers
- Glue
- Tape
- Your creativity!

Directions:

- Color your dragon template, which includes your dragon's head, tail and feet! There is a double sided head, to fold later and a double side tail part. 4 feet – so that you can stick them together and that your dragon looks great from both sides!
- Once you've finished coloring, cut out the head, tail, and feet! When you have cut the head out fold it over by the mouth and then you can cut out the “mouth space”, so you can add some tissue paper fire.
- Fold your red paper "accordion style"
- Using glue or tape (your choice!) attach your dragon's head, tail, feet, and popsicle sticks to the red paper body!
- Attach the tissue paper "Fire" to the inside of your dragon's mouth!
- Now your dragon is ready to celebrate! Happy Year of the Ox!
